

Addendum to Behaviour Policy in light of Covid 19

This is a temporary addendum to the behaviour policy in light of Covid-19 and is applicable from June 2020

Due to the situation we are in at the moment, this new addendum has been attached to the behaviour policy to ensure that we can keep all children and staff safe and that all staff, governors and parents understand the protocol we are using in addressing any behaviour concerns. As part of the return to school process after school closure parents will be asked to sign a home school agreement and go through this carefully with their child to ensure rules and expectations are the same in school and across all families. The following additions have been made to our school policy:

- Children and parents must arrive and depart at the allocated time slot given to allow social distancing to take place effectively on the premises.
- Children must remain in their own allocated seat within their bubble.
- Children must put their hand up if they want to speak to an adult and not move towards the adult.
- Children must stay 2 metres apart from other children and follow the markings we have laid out.
- Children must follow 1 way systems in school when moving around and the instructions of their adult.
- Children must stay apart when playing outside and play in the designated area they have been given.
- Children must leave the site when asked to do so and not walk home with anyone outside of their bubble. If walking home with 1 friend, they must remain two metres apart.
- Children must follow the rules for the use of toilets. EYFS and KS1 all children will be accompanied by an adult to supervise handwashing. KS2 children must wait and not enter a toilet if 2 people are already inside.

- Children must use their own resources that have been provided in their space.
- Children must just drink from their own water bottle.
- Children must cover their mouth with their elbow or preferably use a tissue using the 'catch it, bin it, kill it approach' if they sneeze or cough
- Children must not cough, sneeze or spit towards another person.
- Children will wash their hands with soap regularly or hand sanitise; they must do so when asked to throughout the day.
- Children must tell a grown up at home if they feel ill before they come to school and must not attend school that day.
- Children must tell an adult at school immediately if they feel unwell and parents will be contacted. Parents must pick children up as quick as possible.

Children will be rewarded for good behaviour and for following the new rules.

Reasonable adjustments will be made for students with more challenging behaviour and this will be risk assessed with parents and staff having a copy of this document.

Information on the above may be ever changing as the government advice changes - all members of the school community will be kept updated.
